

Math Notes (Paperback)

By Clara Floyd

Createspace, United States, 2013. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Have you used the pythagorean theorem lately? Do you remember polynomials, binomials or compound fractions? Clara Floyd doesn't, because while the math teacher was teaching and the other students were drawing parabolas and hypotenuses, she was making her own Math Notes. Math Notes is a crazy collection of imaginative convergences, freshly pressed from the vernal grey pulp that is a young educand's cognition. Read Math Notes and learn why it is a bad idea to share a cab ride with a meatball, befriend the Marshionmellow, learn all 6 of the greatest monster myths, the heinous and morbid crimes of Professor Pig, and much, much more. Learn how much wine would a Whine Dixie drink, when a Whine Dixie does drink wine; and how belligerent a dog in search of his next drink can get. Spin the wheel in the fascinating new game show Wheel of Pain. And see what happens to the North Pole Franchise once the elves take over the workshop, Christmas will never be the same! Should the title be Math Notes or Math,...
